

# Oceanography for Campaign Analysis on Undersea Warfare

PI: Peter C. Chu ([pcchu@nps.edu](mailto:pcchu@nps.edu)), Sponsor: NAVOCEANO 2005-2006

Funding Level: \$30,000

## NPS Theses

Process to evaluate impact of environment on big picture

## Brief Description

Campaign Analysis provides a method to demonstrate the benefits of incorporating METOC information into planning and execution of Naval missions. NAVOCEANO requires analysis to be performed to determine the impact of environmental data and ocean model products on Navy systems and missions for Naval Special Warfare (NSW) and Expeditionary Warfare (EXW).
