Train the System Administrators of this network...

...Or this network...

...from virtually Anywhere.

• Train operators and administrators of any sized network on a variety of network threats (Bots, Worms, Virus, etc)
• Very low risk to network
  • behaviors are EMULATED, not DUPLICATED
• Every workstation not only an Emulator, but also a Sensor – remotely monitored and administered.

CS Students
James O. Hammond, Commander, USN
Ray Longoria, Captain, USMC
Justin Neff, Lieutenant, USN

Research Associate
Arijit Das

Research Assistants
Greg Belli and Erik Lowney

Thesis Advisors
Gurminder Singh, Ph.D – Professor, Department of Computer Science
John Gibson – Lecturer, Department of Computer Science
