 **FOT&E**

FOT&E begins after FRP decision.  
Continues activities from IOT&E.

Purpose of FOT&E:

- Refines OT&E estimates
- Assesses changes made to system
- Reevaluate system
- Determines if system retains effectiveness

FOT&E conducted by OT&E agencies or user commands.  
FOT&E can continue over entire life of system.

---

---

---

---

---

 **FOT&E Report**

Prepared at conclusion of each FOT&E.  
Includes the following:

- Degree to which system accomplishes its missions
- Degree to which system can be place in operational field use
- Conditions under which system was tested
- Ability of system to perform entire mission
- System weaknesses
- Evaluation of personnel and logistics

Results contribute to future increments.
