

Operations Research Seminar

Analysts on the Battlefield, Iraq

CDR Doug Burton

Operations Research Department
Naval Postgraduate School

During 2007, I deployed to Camp Fallujah with the U.S. Marines of Multi-National Forces-West (MNF-W) in Al Anbar Province, Iraq.

I worked in the Science and Technology Directorate for MNF-W as their Lead Analyst. During my travels in Iraq, I was able to gather information about what many of the trained analysts were doing for their organizations.

This presentation and discussion is the final in a series of three presentations about my experiences during this tour of duty. We will discuss analysts on the battlefield to include a formal survey that I conducted and informal and anecdotal observations that I collected.

Date: Thursday, February 28, 2008

Time: 15:00-16:00

Location: Glasgow 115
